## Experience

[Lorian Robotics](#) - *Co-Founder, Lead Programmer*

**FEBRUARY 2020 - PRESENT**

Engineered solutions to bypass bot protections on e-commerce platform Shopify. Created auto-checkout solutions for the payment processing elements on Stripe, Supreme New York, and Shopify. Found a new way to utilize cookie storage to bypass Shopify queue as well as created software to monitor multiple e-commerce platforms.

[Gael Force Robotics](#) - *Development Officer*

**MAY 2019 - PRESENT**

As the development officer I help educate the incoming freshman about robotics and engineering.

[Gael Force Robotics](#) - *Co-Captain*

**JANUARY 2019 - MAY 2019**

As co-captain of VEX robotics team 5327X, I help lead the team during competition and ensure that everyone participates and has a chance to learn. On the team, I handle programming the bot and ensure that the robot is competition ready. 5327X last season attended the VEX-worlds competition and will be attending this season as well.

[Battle of The Bay Vex Robotics Tournament](#) - *Volunteer*

**JANUARY 2018, JANUARY 2019, JANUARY 2020**

Helped reset fields and set up tournament manager software. Ensured that the network had no downtime and utilized network diagnostic tools in order monitor the performance and delay within the network.

[techberge.com](#) - *Founder*

**JANUARY 2016 - JANUARY 2018**

Techberge was a consumer technology review site with thousands of monthly views and many dedicated readers. Techberge was admitted into CES 2017 and 2018 as members of the press. We aimed to provide our viewers with reliable unbiased reviews. We handled reviews for big names such as BenQ, Huawei, and Motorola.
